*Reno Riverfest prepares for risks with high-flowing Truckee River*

AA

RENO, Nev. (News 4 & Fox 11) — Organizers of the Reno River Festival say they are preparing for some exciting conditions that a high-flowing Truckee River could bring to this year's event.

The festival is scheduled for May 13 and 14, and the record-breaking winter and ensuing river flow should attract whitewater athletes from around the world.
